1.2P - Object Oriented Hello World

PDF generated at 22:03 on Tuesday 7th March, 2023

```
1  using System;
2
3  namespace HelloWorld
4  {
5      class MainClass
6      {
7          public static void Main(string[] args)
8          {
9              Message myMessage;
10             Message[] messages = new Message[5];
11             string name;
12
13             myMessage = new Message ("Hello World - from message object");
14             myMessage.Print();
15
16             messages[0] = new Message("Hello");
17             messages[1] = new Message("Welcome");
18             messages[2] = new Message("Hi");
19             messages[3] = new Message("OK");
20             messages[4] = new Message("Bye");
21
22             Console.WriteLine("Enter name: ");
23             name = Console.ReadLine();
24
25             if (name.ToLower() == "leah")
26             {
27                 messages[0].Print();
28             }
29             else if (name.ToLower() == "abi")
30             {
31                 messages[1].Print();
32             }
33             else if (name.ToLower() == "yu")
34             {
35                 messages[2].Print();
36             }
37             else if (name.ToLower() == "raza")
38             {
39                 messages[3].Print();
40             }
41             else if (name.ToLower() == "alba")
42             {
43                 messages[4].Print();
44             }
45             else
46             {
47                 Console.WriteLine("unknown name");
48             }
49
50         }
51     }
52 }
```

```
1  using System;
2
3  namespace HelloWorld
4  {
5      public class Message
6      {
7          private string _text;
8
9          public Message(string text)
10         {
11             _text = text;
12         }
13
14         public void Print()
15         {
16             Console.WriteLine(_text);
17         }
18     }
19
20 }
```

A screenshot of a Visual Studio Debug Console window. The window has a dark theme and a tab labeled 'Microsoft Visual Studio Debug' with a close button. The output text is as follows:

```
Hello World - from message object  
Enter name:  
leah  
Hello
```
